Club Loco Build

Polly Molly-Ann

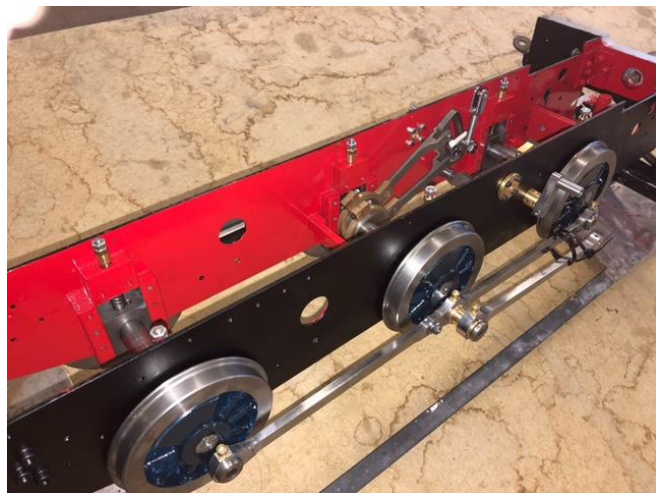

By Pete Brougham

The new parts for the Polly Project arrived just before Christmas, along with kits 5 and 6.

Work has progressed well with two more sessions being held on Saturdays 8th & 22nd during January and is now beginning to be recognisable as a locomotive.

5" Ground Level Track

Progress has continued on the 5" ground level track with the track bed for the passing loop now dug through the heavy clay next to the car park

The concrete steam bay apron has been cut ready to lay the track and now joins up with the new section of track laid between the clubhouse and the workshop.
